

OFFICE HUMILIATION

While other people are at work your perverted mind cant help but wander to humiliation and how you need it even when you are supposed to be out earning a living. Freaks like you can never get enough.

Erotic Humiliation Torture At Work

Congrats you're a humiliation torture junkie. Time to get to work... while you're at work! Lock the office door, or don't I don't give a fuck if you get caught! Really I don't!

You will need some items:

Stapler
Rubber bands
Binder Clips
Hot Coffee
Sharpie
Ruler

Now that you've collected your items from around the office its time to get going. First, undress. Thats right take off all your clothes. ALL of them while you are at work. I bet your pathetic cock is already hard. Just thinking about it.

Rubber Bands: put them around your balls. Make sure they are tight. start with one rubber band at the base of your balls then move to two, then add a third.

Now separate your balls with more rubber bands so that you have two orbs. I bet that hurts, good. You should have at least 6 tight rubber bands constricting your balls. See how many you can get on your aching balls. Be somebody!

Binder clips: These go on your nipples. Make sure to snap them tightly closed! Ha you are so gross.

Sharpie: Write on your chest " IM A GROSS PIG AT WORK" in big bold letters. That shit isn't going to wash off for a long time!

Ruler: Slap your rubber banded balls 5 times with the ruler each time hit your balls harder, if you're not crying or screaming you're not hitting them hard enough. Then do it 5 more times. Each swat harder then the last. After every swat say out loud. "I love it when it hurts. Im a pig who likes my balls tortured"

Rubber bands again:

Now add rubber bands all the way up your cock, cover that cock in tight rubber bands, make them tight, make it hurt, make sure you cover your cock with rubber bands, snap a few while you're at it. I want it covered from base to tip in rubber bands.

Hot Coffee: Dip your tied up pathetic cock in the hot coffee. Scald that cock. make it burn. Then drink your coffee after youve flavored it with rubber band cock.

Stapler: Open it up so its one long piece. Now bend over and shove that thing in your ass. Work it in and out, don't be a pussy really fuck your ass with the stapler.

Bonus points if you take a photos and send them to me so i can laugh at what a gross pig you are!
